

Product Features

- It is a multi-process (MIG-MAG/ MMA/LIFT/TIG)) welding machine that can operate in a single phase.
- Ideal seams for steel, stainless and aluminium welding
- Compact design suitable for 5-15 kg wire use
- Great weld superiority in thin section materials
- Capability to weld without burrs with synergetic, pulse, double pulse feature
- Able to operate with generators
- Fully functional, user-friendly control panel layout for easy setup of welding parameters.
- Portable, lightweight and durable design for construction site conditions

Extra Functions

- Thermal Protection
- Overcurrent Protection
- Overvoltage Protection
- Plastic front and rear panels
- Durable metal body

Usage Areas

- Automotive
- Bodywork, sculpture
- Signage and advertising
- Industrial facilities
- Maintenance and repair applications
- Hobby applications etc...
